Ayer's Sarsavarilla

A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following

The Broop.

This compound will be ound a great promoter of health, when taken in the spring, to expel the foul humors which feater in the blood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will atrive to the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something

lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the Sarsaparilla which flood the market, until the sarsaparilia which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible to the ordinary and the discussion it is intend. by the ordinary run of the diseases it is intended to cure. It is a strange circumstance, that Capt. Crawford was killed within fifteen miles of the place where he was born. A great number of his relatives live near Phillippi, and are strong accessioniats. The Mormon Elders Among us.

On Wednesday, Elder Nathaniel Vary Jones, of Salt Lake, the Atlantic agent for the reception of Mormon emigrants from Europe, was in this city negotiating for the passage of a number of the Saints over our Western roads to St. Joseph, Missouri.

Elder Jones, we learned, was accompanied by Elder Jabez Woodward, Elder H. O. Hanson, and Elder Niel Williamson.

These latter named arrived at the port of New York on Tuesday, in the ship Monarch of the Sea, with nine hundred and forty-nine Morard of the Sea, with nine hundred and forty-nine Morard named to the state of the largest named to the state of the state of the largest named to the state of the largest named to the state of t

The Monarch's crew was made up of nine different nationalities, viz: English, Welch (with a few Scotch and a very few Irish), French, German, Swiss, Italians, Danes, Swedes and Norwegians. Of these, no less than 549

The Tuscarawas Advocate gives the following history of his death:

The particulars of his death, as we learned them from Mr. Neely and Dr. Crawford, may be stated as follows: It appears that during Monday, the officers became satisfied, from the reports of their spies, that they would probably measure accounted for—after a variety of futions are believed on the average to have tended rather the other way. With the cotton season closed, and little produce to come forward exanxiously looked in the direction where there appeared to be danger. At that moment, Captain C. approached from behind—he had on a light pair of shoes, and stepped softly—perhaps with the intention of surprising the sentinel, but when within six feet of him, his sword struck a stone. The sentinel instantly whirled, and without the least warning, fired, and discharged a musket ball and two buckshot in the stemach of Capt. Crawford. The unfortunate officer staggered and fell back, with his arms outstretched, exclaiming: "My God, I am shot! murdered! "My God, I am shot! murdered! "My God, I am shot! murdered! "His brother ran to his assistance—but after he reached him, he only breathed once and expired.

The sentinel was immediately agreeted and Fall to our market. Hence there was a steady flow hither of California gold, and the rate of exchange at New York was nearly always in favor of England. But it now appears that since The sentinel was immediately arrested and placed under guard. A court martial was held —but after learning all the circumstances connected with the sad affair, the accused was acquitted. On trial, the soldier declared that he had not intentionally food at the chains on London falling due from these quarters on American account must for these quarters on American account must for had not intentionally fired—but that the musket went off accidentally, as he wheeled to see
what had caused the noise behind him. As
